

## **Vernet Group Expands Activity in Europe's Aerospace and Defense Market with Vernatherm by Vernet Brand**

Wednesday, June 14<sup>th</sup>, 2023

**Vernet Group**, a renowned leader in thermal control solutions, is proud to announce the official expansion of its activity in Europe's Aerospace and Defense sector with the Vernatherm by Vernet brand. Building upon its strong presence in the United States, Vernet Group is now poised to deliver its expertise and innovative solutions to the European market.

Vernatherm by Vernet specializes in the design and development of engineered thermal solutions and products specifically tailored for the Aerospace & Defense industry. With a relentless focus on innovation, we strive to offer our customers the optimal combination of cost-effectiveness, increased reliability, and superior performance.

The Vernatherm product line has experienced substantial growth and our thermal controls are widely utilized in a large majority of commercial jets, military vehicles, and UAV's. Our commitment to excellence and continuous improvement has positioned us as a trusted partner in the aerospace industry.

**Benoit Halard, President of the Vernet Group** said *"Our expansion into Europe's aerospace and defense market marks an exciting milestone for Vernet Group, We are thrilled to bring our proven track record of delivering high-quality thermal control solutions to new customers in Europe. With the Vernatherm by Vernet brand, we aim to provide unparalleled innovation and service, reinforcing our position as a leader in the industry."*

Vernet Group's dedication to research, development, and customer collaboration has been instrumental in driving its success in the aerospace and defense sectors. With the expansion into Europe, Vernet Group is set to extend its reach and make a significant impact in this thriving market.

To coincide with our expansion into Europe, we are thrilled to announce the launch of a brand-new website dedicated to our Aerospace & Defense solutions: **[www.vernathermbyvernet.com](http://www.vernathermbyvernet.com)**. This website will serve as a comprehensive platform for customers to explore our cutting-edge thermal control solutions and learn more about our capabilities and expertise.

**Karim Ouenniche, Power Energy Group Business Unit Manager** said *“Furthermore, Vernatherm by Vernet is excited to announce its participation in the prestigious **Paris Air Show**, to be held at **Le Bourget** from June 19<sup>th</sup> to 25<sup>th</sup>. As a prominent event in the aerospace and defense industry, the Paris Air Show offers us a unique opportunity to showcase our innovative solutions, connect with industry professionals, and strengthen our presence in the European market. We invite all attendees to visit our booth (Hall 2- E158) at the Paris Air Show to experience firsthand the excellence and ingenuity of Vernatherm by Vernet.”*
